About Me

A highly motivated final-year student of Bachelor of Computer Science with Business Systems at Vellore Institute of Technology, Andhra Pradesh, seeking to secure a responsible career opportunity to fully utilize my training and skills while contributing significantly to the success of the company. Possess exceptional communication and interpersonal skills with a proven ability to work independently and as part of a team.

Education

VIT University | Andhra Pradesh, India
B.Tech Computer Science (2021–25)
Current CGPA - 8.9

Ramjas School ,Anand Parvat | New Delhi , India
Senior Secondary(XII),Science - 2021
CBSE Board – 92.4%

Secondary (X) - 2019
CBSE Board – 90%

Skills

- Data Science - AI ML, Deep Learning , NLP
- Gen AI LLM - Mistral , Lamma , Gemma
- Programming - C++ , Python
- Fullstack - HTML , CSS , Flutter
- Data Analytics - Power BI , SQL
- Cloud - AWS S3, EC2, ECS
- Ops - Docker, Github

Certifications

- Amazon certified AWS Solutions Architect (2024 - 2027)
- AI and ML Certificate Powered by Google Developer
- Ultimate AWS Certified Solutions Architect Associate SAA-C03 (Udemy)
- Flutter and Dart [2024 Edition] (Udemy)

Academic Project

VocalCode - Voice Based Code Generation
AI - GenAI
- **Objective**: Making a compiler which makes websites based on the needs of the user given by him through voice input . (might include coding languages also like C++ , C , Python , Java)
- **Skills:** LLM (Llama 3.2) , HTML , CSS , JS , STT(Speech Recognition) , Python

Developed a URL-based Phishing Detection System
Info Security
- **Objective**: Leveraging advanced machine learning algorithms to analyze and classify website URLs based on phishing patterns .
- **Skills**: Machine Learning, Deep Learning URL Feature Extraction, Cybersecurity, Data Preprocessing, Python.

ASL (American Sign Language) Detection
AI - CNN
- **Objective**: Leveraged advanced computer vision and machine learning algorithms to analyze and classify American Sign Language gestures .
- **Skills**: Machine Learning, Deep Learning, Python, Data Preprocessing.

Industry Experience

InTrainTech (Edutech & AI) *July 2024 - December 2024*
- Worked on interview bot which leverages the use of Mistral , Llama .
- Using STT(Whisper Model or Fast Whisper) along with VAD for efficient speech input .
- using Text-to-Speech engine (Google TTS and FastSpeech) .
- Using BERT and Sentence Transformers along with Cosine Similarity for scoring answers .
- Compiler Design - Made an online CPP , Python , C , JAVA compiler.
- Digital Marketing App - Text Generation & Image Generation using Generative AI LLM .
- Bulk Email campaigning

PyramidAI Hub (Retail Automation) *May 2024 - July 2024*
- Implemented YOLOv10 object detection to track product placement, improving visibility and accuracy by 92%.
- Utilized SAM for precise image segmentation to enhance product labeling and shelf analytics in planograms.
- Developed image recognition for planogram compliance, and correct placement of products .

Research

IOT AI - Intelligent Lock System
- Intelligent Door Locking system Leveraging Bluetooth, Wi-Fi, Face Recognition, and 4X4 matrix keypad for Robust Access Control of Door Lock.
- GitHub - https://github.com/mrjohri/Intelligent-Smart-Lock/tree/main A very robust solution for secure locking systems .
